

## Ideation Phase

### Define the Problem Statements

Date	09 October 2022
Team ID	PNT2022TMID29726
Project Name	Project – IoT based smart crop protection system for agriculture
Maximum Marks	2 Marks

I am farmer	I'm trying to protect crops	But animals craze the yields	Because my farm is near the forest	Which makes me feel frustated
----------------	--------------------------------	---------------------------------	---------------------------------------	----------------------------------

I am Pesticide dealer	I'm trying to provide best pesticides	But can't get proper suggestions	Because different insect attack	Which makes me feel upset
--------------------------	--	-------------------------------------	------------------------------------	------------------------------

I am Vendor	I'm trying to buy quality goods	But stocks are not worthy	Because damages caused in the fields	Which makes me feel Depression
----------------	------------------------------------	------------------------------	---	-----------------------------------

I am Soil and plant scientist	I'm trying to increase yield	But the profit is low	Because climate and other disturbances	Which makes me feel guilt
----------------------------------	---------------------------------	--------------------------	---	------------------------------

<b>Problem Statement (PS)</b>	<b>I am (Customer)</b>	<b>I'm trying to</b>	<b>But</b>	<b>Because</b>	<b>Which makes me feel</b>
PS-1	farmer	Protect crops	Animals craze the yields	My farm is near forest	frustrated
PS-2	Pesticide dealer	provide best pesticides	can't get proper suggestions	different insect attack	upset
PS-3	Vendor	Buy quality goods	Stocks are not wothy	Damages caused in the fields	Depression
PS-4	Soil and plant scientist	increase yield	the profit is low	climate and other disturbances	guilt
